We provide dependable, quality service guaranteed !

EXECUTIVE VAN LINE SERVICE
As easy as 1-2-3 ...

We have a large fleet of moving vans and professional moving equipment to meet any size job.

Three things make us the right choice for your next move: Single-source service, lower claims, and a top-quality team.

1. Single-Source Service

The biggest difference between Professional and other van lines is our use of a single moving team from the start to the finish of every move. Other van lines use an agent system, which means that there may be several different crews working on one move. That's more chances for mistakes. We deliver you direct. No delivery spreads.

With Professional Moving & Storage every move is assigned to a single crew that performs 100% of the services needed. **Our people go with your truck.** Having all services performed by a single team gives complete quality control over the entire process and gives you peace of mind. We go direct with any shipment over 5,000 pounds. **We provide direct service in the lower 48 states.** Because we move each customer direct we custom size the truck and crew to the size move.

2. Lower Claims

We are proud to have an excellent claims-to-move ratio. Because we maintain total control of every move, we are able to keep our claims low. If we do have a claim, we consider it an opportunity to provide more quality service. Our claims are settled fast and right here in our of-

fice. Please ask about our insurance options before you move.

3. A Top-Quality Team

While the moving industry in general has a noticeable lack of experienced drivers and movers, Professional Moving & Storage team of movers averages 10 years experience, four times the industry average.

Because our system allows us to cut out the middle-man or agent, we can increase compensation to our crews. We can retain a higher caliber of employee-which means that your move is being handled by Professionals who care.

PROFESSIONAL MOVING & STORAGE, INC.

 www.pmsmoving.com

Temporary Storage

Our warehouse will meet your needs for storage. Ask your moving consultant to give you more information.

Ask your Agent or Neighbor

We work closely with most local realtors. Most of our business is from repeat customers, or people who were referred to us. We have most likely moved your neighbor.

Local Moving Made Easy

Free Estimates

We offer free in home estimates. That is the first sign of a professional mover. We strive to be the best movers in the area. An estimate gives you a quote, and it lets us know what services to be ready to give you. Movers who give quotes over the phone, or has you send in a form, doesn't know what to expect on move day. Neither do you for that matter. Our moving consultant will give you the information you need to feel at ease about your move.

Professional Services

You receive the same basic services that you would if you

were moving across the country. Just because it's a local move doesn't mean your furniture should be handled differently. It still must be loaded and unloaded and padded just like a long distance move. We give professional service no matter how large or how small your move is.

All of our moves get these services.

- Trained and polite workers**
- Proper tools & equipment**
- Plastic wrap on upholstery**
- Door guards, floor runners**
- Carpet mastic on stairs**
- Padding and wrapping**

We believe in customer service.

Packing and packing material

Some customers just don't have the time, or are not able to pack their own boxes. We offer complete full service packing. Our trained professional packers will pack most homes in 1 day. We also sell all types of quality materials for those who pack themselves. Our prices are great.

Delivery and other services

We offer delivery of furniture and other large items from local stores as well as from your home or business. The rates are charged by the item moved. Ask your moving consultant for information. We can move appliances, hot tubs, grand & baby grand pianos, safes or just about anything of value. We have the experience on staff to handle any job. Please call for pricing.

PROFESSIONAL MOVING & STORAGE, INC.

Local Moving & Delivery

We provide dependable, quality service guaranteed!

Professional Storage Service *we pick up and redeliver*

Our storage service is top notch. We take careful steps to insure that your possessions are protected from start to finish. The picture below shows our staff removing items from a residence.

You receive a detailed inventory of all of the items you store. We then wrap and pad your items for protection. The picture below shows the racks your stuffed sofa's and chairs are stored in. We use racks for items that might be damaged by other items in containers. They are sealed in plastic to keep dirt out. These items are cataloged so that no items are lost.

You pay for only the containers you need. No longer do you have to rent space that is too large or too small. We pack the containers tight so there is no movement. All of the furniture is wrapped in blankets for protection.

The process we use prevents damage. We want your items to come back to you the way you gave them to us.

Blanket wrapping protects and insulates your items. The same crew that picked up your items also loads them into the containers.

As you can see, all of the space is used. After loading the containers are marked with your name and sealed. A locator card is used and filled out by our crew with your container numbers on it and entered into our computer system.

The containers are now ready to be placed in their permanent location. Containers are placed in the warehouse in locations based on their expected delivery out. This helps insure that your containers are not moved while in storage.

Our warehouse is security & fire alarmed for your safety.

The warehouse is climate controlled between 40 and 90 degrees.

Please inquire about our expert packing services.

We provide dependable, quality service guaranteed !

Professional Office Moving *fast, efficient, safe, insured*

Professional Moving & Storage is a full service relocation company serving all of Greater Kansas City, Lawrence and Topeka. **We offer a complete approach to office and industrial moving.** We will deliver a fast, safe and seamless move with minimal interruption to your productivity.

1. Fast

We hire only full-time, qualified employees and train them thoroughly. Each employee receives 4 hours of multi-media classroom training every month. Our crews are always in uniform and each member displays a com-

pany I.D. badge. Supervisors carry Nextel 2-way radio phones to communicate with you and our management.

2. Efficient

Our move management team is skilled on logistics, space planning and time management. We will come to your offices for several pre-move planning sessions where all of the details of your project will be discussed with you and your staff. Our employees are productive, giving you less down time.

3. Safe

The protection of your current building, your new loca-

tion and all items being moved is our most important task. We use protective material to cover floors, walls and door frames. Opportunities for damage are dramatically reduced by the use of specialized equipment to protect and move pictures, computers, printers and other sensitive electronics.

4. Insured

We maintain liability and are fully licensed, insured, and bonded, for truckers, inland marine for property and equipment. Employees have workers compensation.
